EDUCATION

Bennett University

B.Tech CSE - 8.46

2023 - 2027

- Specialization: Full Stack Development
- Relevant Coursework: Data Structures & Algorithms, OS, DBMS, Web Development, Computer Networks

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB (Mongoose)

Deployment & DevOps: Docker, Render, Netlify

Logging & Monitoring: Winston, Morgan

Tools & Version Control: Git, Github

Testing: Chai, Postman

Stack: MERN

PROJECTS

[Academiq: Educational LMS](#)

Developed a responsive LMS platform with user authentication, subject-wise modules, and an instructor dashboard. Integrated MongoDB for course storage and Express for API management.

[Data Sanitization Tool](#)

Built a data sanitization web app that securely wipes device data via Linux command execution. Includes encryption options, live terminal logs, and a responsive UI.

[RareBid](#)

Created an Etsy-inspired marketplace with product listing and real-time bidding using Socket.io. Implemented authentication and user dashboards.

[Cinescope](#)

Designed a Netflix-inspired interface for browsing movies and categories with a fully responsive layout and smooth transitions.

EXTRA CURRICULAR

Silhouette, Bennett University

2023 – 2024

Junior Core Member

Ideated and organized art-based campus events; contributed to creative direction and planning.

Red Dot Campaign by SafeCity

2021 – 2022

Volunteer

Conducted outreach and data collection for SafeCity's initiative mapping harassment incidents, contributing to a national safety dataset.

CERTIFICATIONS

Completed a series of 10 Coursera certifications under university sponsorship, enhancing knowledge in algorithms, system programming, web development, and database management.
